Anton has been a huge help to my family. Providing help jobs ranging from a small alteration in my elderly mother's kitchen to painting the whole of my daughter and son-in-law's new house as well as doing a couple of other small jobs for them in their new home.

We all appreciate that he has no problem about the size of job, is always friendly, helpful and conscientious. What's more he is the sort of person that gets on with things without any fuss and we feel confident that he will look after whatever needs to be done without having to watch over him.

A real pro.
